MAKING PEOPLE WHOLE

DIGNIFIED, LIFE-AFFIRMING HEALTH CARE

A MISSION TO PROTECT

1. THE RIGHT TO LIFE-AFFIRMING, DIGNIFIED HEALTH CARE.
2. THE RIGHT TO MEDICAL CONSCIENCE.
3. THE RIGHT OF INDEPENDENT, FAITH-BASED MEDICAL CLINICS TO EXIST.

M I S S I O N

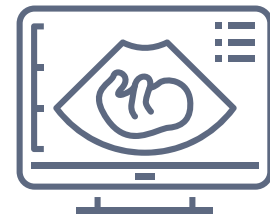

LIFE-AFFIRMING MEDICINE

Bella provides life-affirming, dignified health care to men, women, and children.

Bella cares for more than 7,200 patients annually from three clinic locations in Colorado.

We specialize in obstetrics, gynecology, fertility, family medicine, pediatrics, functional medicine, and fertility education.

ABORTION DETERMINED

On any given day, statistics suggest 45% of our pregnant patients are abortion vulnerable. 18% are abortion determined. We care for all.

For those who have initiated chemical abortions, we offer Abortion Pill Reversals.

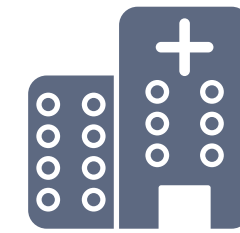

Bella is unique in pro-life health care, offering comprehensive OB services.

FINANCIALLY VULNERABLE

Bella experienced a 176% increase in Medicaid and Emergency Medicaid (undocumented immigrant) patients in 2021 (reimbursed at roughly \$0.60 on the \$1.00).

We experienced a 64% increase in the need for free care, with demand continuing to grow due to families' economic uncertainty.

FAITH-BASED HEALTH CARE

Because we believe every person deserves access to life-affirming, dignified medicine, Bella is developing a clinic mission model playbook.

This playbook will be shared via training opportunities with communities throughout the country, so that others may establish life-affirming, independent medical centers, too.

MEDICAL CONSCIENCE

Only four states protect a provider's right to practice according to conscience. Colorado is *not* among them.

With so much of the government's approach to medicine in conflict with protecting the sanctity of life, Bella fights on the local, state, and federal levels to ensure medical providers' can continue to offer life-affirming care.

WHO WE ARE

/'Bɛl lɑ/ n. [LATIN]] WARS

Bella Health + Wellness is an independent, faith-based medical center offering life-affirming, dignified health care to men, women, and children from three clinic locations in Colorado.

We specialize in obstetrics and gynecology, family medicine, pediatrics, and functional medicine.

Bella is at the forefront of Catholic health care, developing an independent clinic model that can be replicated in communities throughout the United States. Every year, Bella invites medical students to train in life-affirming approaches.

Bella exists to make people whole - body, mind, and soul.

Every year, Bella must fundraise roughly \$2 million dollars to ensure we can continue offering life-affirming care.

WHAT WE PROTECT

LIFE

Most people don't realize that an ob-gyn's office can be an abortion center. With quick access to the medications that initiate chemical abortions, doctors can participate in the culture of death daily. Bella champions life.

DIGNITY

Conveyor-belt medicine has become the norm in America, with "healing" dished out in 5-7 minute appointments from clinics cold and sterile. The pursuit of root cause and authentic wellness has given way to band-aid solutions and profit over patients. Bella honors the innate dignity of the human design.

MEDICAL CONSCIENCE

Providers can struggle to find work in life-affirming clinics and are sometimes forced to choose between following their consciences or losing their jobs. Patients are sometimes pressured to conform when it comes to their health, eroding personal and religious liberty. Bella respects medical conscience.

INDEPENDENT HEALTH CARE

Practice takeovers by hospitals and insurance companies threaten private health care. Insurance companies take advantage of small practices through unfair reimbursement policies. Even so, Bella remains independent, so that medicine free of outside control can exist.

WHOM WE SERVE

THE PREGNANT

Bella offers comprehensive OB care to hundreds of women every year. We walk with those who experience the joy of childbirth and those who grieve from miscarriage.

THE ABORTION VULNERABLE

Bella specializes in care for the abortion vulnerable, especially those who seek to reverse a chemical abortion through Abortion Pill Reversal.

THE COUPLE

Bella is one of only a handful of NaPRO fertility clinics in the nation offering natural infertility treatments via surgical and non-surgical solutions.

THE FAMILY

Men, women, and children receive primary care at Bella. Our providers offer life-affirming medicine, evidence-based approaches, and regard for conscience in every patient visit.

HOW WE APPROACH

Compassion. Reverence.

"A person's rightful due is to be treated as an object of love, not as an object for use."

St. John Paul II

WHY WE PRACTICE

JESUS SPENT 21% OF THE GOSPELS HEALING.

We believe we are entrusted to continue His work, recognizing the path to the soul is often through the laying on of hands. At Bella, we say "yes" to this call.

HOW WE HELP

7,172 unique patients cared for in 2021

323 new patients / month

382 babies born to Bella moms

\$245,578 was offered in totally free care

1 in 3 OB & Peds patients are on Medicaid

BELLA'S IMPACT

MORE BABIES DELIVERED THAN EVER BEFORE.

Census data tells us the drop in the national birth rate during Covid was as high as 8%. Despite this, Bella's practice is growing, with 382 babies delivered in 2021 alone. Bella is now Swedish Medical Center's largest delivering practice.

50% GROWTH IN PATIENTS SEEN YEAR-OVER-YEAR.

23% INCREASE IN BABIES BORN YEAR-OVER-YEAR.

40% MORE FREE CARE OFFERED YEAR-OVER-YEAR.

MORE PATIENTS RECEIVING CARE THAN EVER BEFORE.

Bella has experienced unprecedented growth, with an average of 323 new patients seeking care in our clinics every month. In fact, on any given day, 1 in 5 patients is receiving care at Bella for the very first time. That growth reflects the community's very real need for life-affirming, dignified health care options.

MORE FINANCIALLY VULNERABLE THAN EVER BEFORE.

The need for subsidized or free care is at an all-time high. One in three of our pregnant and pediatric patients is on Medicaid or Emergency Medicaid (immigrants). We do our best to care for as many financially vulnerable as we can, ensuring

FIRST TO THE FIELD

MAKING PEOPLE WHOLE

WHAT'S AHEAD

MORE SPACE

We are doubling the size of our primary campus in order to meet the overwhelming patient demand.

MORE SPECIALTIES

We are expanding our pediatric, fertility, and functional medicine programs to further our care of the whole person.

MORE ADVOCACY

We are fighting for medical conscience on the local, state, and federal levels, advocating for providers' rights in medicine.

MORE CLINICS

We are developing a clinic playbook that can teach other groups how to establish "Bellas" in their own communities.

BELLA HEALTH + WELLNESS

BECAUSE YOU CARE ABOUT LIFE . . .

As government mandates reach further into mainstream health care, Bella fights to remain independent, free to provide medical care that is life-affirming.

But this decision comes at a cost, as our ability as a small practice to negotiate fair contracts with major insurance companies is limited, especially in the area of natural reproductive medicine.

This means that Bella must fundraise 25% of our operating expenses every year. Money raised goes toward care for the abortion vulnerable, resources for the financially vulnerable, continued access to life-affirming medicine, and development of a clinic model that can be shared with other communities.
